GAME DEVELOPED

Maggy The Dinosaur Ver.2 (Android)

Game Developer, Game Designer

Nov 2023

A prototype of a 3D mobile dinosaur themed endless runner game

- Designed and coded Core-loop and every other game detail system by using C# in unity.
- Create a top-up mechanism that is compatible with the Play Store to monetize the game.
- Add ads system by using Unity ads SDK. Making player get benefit from watching ads.
- Making skin store in the game that player can buy in the game by using in-game currency that can obtain by playing the game or top-up using real money.
